Utility Program & 2010 Chapter Project Awards Night February 3, 2010

On Wednesday February 3, 2010 AEE New England will be hosting our annual **Utility Program Night**. Since the passing of the Green Communities Act in 2008, Utility Efficiency Program budgets have been increasing at a substantial rate and 2010 is no exception. Representatives from local utilities will review their 2010 programs which now feature more consistency between utilities resulting in less confusion for customers and energy service professionals. Along with the increase in budgets, area utilities are expanding their program offerings and integrating both Gas and Electric efficiency measures, enhancing both their delivery and portfolio of services available for customers.

Our February meeting will also feature our annual AEE New England Chapter Project Awards. The awards present an opportunity for you to acknowledge the award winners, and learn how some facilities have leveraged incentives available to optimize their facility operations with efficient systems and equipment. We look forward to seeing you on February 3rd!

Chapter President
Greetings – February 2010

Once again our Annual Energy Outlook Program team consisting of Rich Costello, Steve Murphy and Kathy Stanley outdid themselves in providing one of the most informative and engaging annual breakfast programs yet. Ok it was a bit of a

disappointment that Rep. Markey was not able to make it, but Joe Dalton - Director of Government and Regulatory Affairs for GDF Suez –did an outstanding job of filling in for the update on National Energy Issues.

Next up was Frank Gorke, Director of Energy Efficiency for the MA DOER, on one of his few trips to “Western Massachusetts”. In fact Frank’s three guest appearances with the NE AEE in the past year or so may account for all of his visits west of route 128. Regardless we appreciate his efforts in supporting our organization and providing enthusiastic insight into the latest state initiatives. The good news is that utility budgets are increasing along with the need qualified energy engineers and energy services!

Closing out the program we heard from Frank Gundal – NSTAR, James Igoe – Greater New Bedford Regional Vocational Technical High School and Paul Holtberg – Director of Demand and Integration Division at the EIA. They provided insightful overviews in future utility program offerings, the education of our future workforce and trends in energy use. I would like to thank Dave Chamberlain and all our friends at Raytheon for hosting another successful breakfast forum to kick off the New Year!

As our organization continues to grow please keep in mind we are all volunteers. If you plan on attending any of our events please consider registering early and paying online. By doing so you will help streamline our check in process and allow us to provide a more accurate count for our hosts. Unfortunately we had to turn a few people away last month as we were over capacity and they hadn’t pre-registered. We apologize for any inconvenience. I look forward to seeing you in February at our annual Utilities Night!

.....

PLEASE READ ... The due date for submissions to the next Newsletter is Feb 12, 2010.

My secret formula is to pick the Friday of the week following our meeting, so, Mar 12, Apr 16, May 14 are the upcoming due dates for newsletter submissions.

Hope to hear from you all **ON TIME!**
Thanks, Roger Goldman CEM - <mailto:energyguy@verizon.net>
